5	IT20628604	GDV MANDINU	It20628604@my.sliit.lk	0750802265

1 Introduction

Online Job Portal

The system we must develop is an Online Job Portal. On this website we must designed 10 or some more pages depending on the upcoming requirements. The pages we already decided to have on this website are,

1. Home
2. Signup
3. Sign in
4. Find a Job
5. Post a Job

6. Submit CV
7. About Us
8. Contact Us
9. Categories
10. User Account

There are two main front-end users are targeted here on the website as candidates and employers.

For a candidate to find a job he/or she can create a user account and submit the CV or search and browse through available jobs (users can browse jobs even without signing in) and apply.

When we consider about an employer, He / She should create a user account to review the submitted CVs to recruit or post their available jobs on the site.

For now, it is free for all users to post and find jobs as a marketing trick.

Users can visit our Facebook page and like and, they can leave their feedbacks on our service.

If any user has an issue regarding anything, they can visit us physically or contact us via contact us page.

2. Individual Contribution

Member 01 (IT20647346)

- Designing the page template.
- Distributed the task among members.
- Helping each other on their portion of work.

- Persona – New user (a candidate).
- User Journey –New user (a candidate).

- Wireframes –
 - Home Page
 - Post a job Page
 - The Template

- Page Developing
 - Home Page
 - Post a job Page
 - The Template
